Objective: Manage and support technology and workflow process integration.
Specializing in high volume print environments.

SUMMARY OF QUALIFICATIONS

- Technical sales support for RISO inkjet printers to production facilities throughout the US and Canada.
 - Workflow integration of production printers into high volume transactional and direct mail print facilities.
 - Director of Data Processing and IT for Direct Mail and Fulfillment company. Responsible for IT Security, Internet gateways, database services, USPS processing, list maintenance and digital print applications.
 - Manage software integration and workflow processes for cross-media marketing (Web based, PURLs), on-demand print, direct mail marketing, and inventory/fulfillment.
 - Responsible for all facets of digital print operations (color and black & white) including production, sales, marketing, personnel etc.
 - Expertise in all aspects of document management including on-demand print, database variable print applications, USPS mail, Internet publishing as well as offset print.
 - Thirteen years experience in an in-plant printing environment for a major insurance corporation researching and implementing print technology.
 - Proprietor of a consulting business specializing in training, support, and production of desktop publishing, graphics, printing and digital publishing (Internet, CD ROM).
 - MS in Industrial Technology Management and BS in Printing Management.
-

PROFFESIONAL ACCOMPLISHMENTS

- RISO President's award 2015 for workflow integration of RISO ink-jet printers to major production print facilities throughout US and Canada (e.g. RR Donnelley, DST Output, Hearst Publishing).
- Engineered award winning benefit statement application utilizing full color digital print, near 100% variable information and data driven graphics. Winner of PIA's Benjamin Franklin Award, 2001.
- Featured speaker at various trade expositions including Seybold and Xplor. Topics included the impact of digital technologies and electronic publishing standards on the printing and publishing industry.
- Researched hardware/software solutions to meet the business needs of a 30 million dollar in-house print facility at Aetna.
- Published article on Pre-press printing technology in "In-Plant Printer" Magazine
- Board member on corporate strategy teams at Aetna including Internet implementation, document distribution, marketing and computing standards.
